

Pushpender Kumar

Java Developer

Dallas TX USA

Email: push86biet@gmail.com

Phone: +1 6085906506

LinkedIn: [/push86biet](https://www.linkedin.com/in/push86biet)

- **5.4 years of software development experience** building large-scale software applications in the Agile/Scrum setup.
- Design and develop Microservices systems with Java, Springboot, Spring cloud, node js.
- Perform unit and system testing, Knowledge of RESTful API services.
- Work closely with the software architects to create high-level applications.
- Experience in supporting and/or implementing complex integration projects
- Knowledge of MongoDB, Kubernetes, Docker.
- Experience in solving technical issues with thorough research and investigation
- Understanding of distributed systems and microservices architecture on AWS and Cloud Foundry.
- Understanding of web technologies and SQL/NoSQL databases like Oracle and MongoDB.
- Good to have experience with an event-based and messaging framework Kafka, Rabbit MQ.
- Mulesoft Integration for the ordering and scheduling API.
- Experience in writing unit level tests using mocking frameworks, as well as automating component, integration, and end-to-end tests.
- Excellent problem-solving skills and communication skills.

Skills

Web Technologies	Java 1.8, SQL, Shell Scripting, Java Script, HTML, CSS, React
Frameworks	Spring Boot, Hibernate, Spring JPA, Kafka, Spring Cloud, Spring Security, Microservices, Restful APIs
Databases	MySQL, MongoDB, Oracle 12c
Tools	Tableau, Kibana, Maven, Jenkins, Docker, Concourse CI/CD, Git, Github, Jira, Mulesoft Integration
Others	High Level Design, Low Level Design, System Design, Data Structures, Confluence, ServiceNow, Remedy
Certifications	Microsoft Azure AZ-900, Microsoft Azure DP-900

Charter Communications

Store Specialist

Dallas, Texas

Jan 2024 – Present

- Assists customers with the purchase of Company products and services, features, accessories and bill payments.
- Troubleshoot customer technical issues and answer the technical and non-technical queries.
- Order creation and order fulfillment through **Agent OS** application.
- Processes paperwork and performs other duties as assigned by management.
- Cash and Billing management- **Oracle XStore**.
- Store and inventory management.

Cognizant Ltd.

Pune, India

Software Developer-**Comcast Cable(Client)**

Aug 2022 – Dec 23

- **Inventory Availability Service**-Developed and maintained microservices using Spring Boot, ensuring scalability and performance.
- Designed and implemented Restful APIs to facilitate communication between microservices.
- Converted SOA services to Java Microservices and deployed them on PCF & Integrated with AppDynamics and ELK stack.
- Integrated third-party services and APIs to enhance functionality and data exchange.
- Implemented authentication and authorization mechanisms to enhance application security.
- Collaborated with cross functional teams to analyze requirements and deliver high quality solutions.
- Implemented System reliability by implementing unit tests and participating in code reviews.
- Participated in Agile scrum meetings, providing valuable insights and contributing to sprint planning.

Technologies-Spring Boot, Oracle, Hibernate, Mongo DB, ServiceNow, Appdynamics, SQL, REST API, Docker, Java 8

Mindtree Ltd.

Bangalore, India

Senior Software Engineer-**Silicon Valley Bank(Client)**

Oct 2013 –Nov14

- Developed restful APIs for managing wire payments, transactions reporting etc.
- Coding as per the new requirements from the clients to improve the existing feature or to add new functionality in the application.
- Participated in daily scrum meetings and provided feasible solutions for the new features and bugs in production.
- Unit testing of the modules in Junit and other frameworks.

Technologies-Spring, Struts, Oracle, Hibernate, ServiceNow, Putty, Control M, SQL, SQL Developer, REST API, Web Services, Java 7

HCL Technologies Software Ltd

Bangalore, India

SOFTWARE ENGINEER-**Deutsche Bank: Global Distribution Platform**

Oct2010 – Oct'13

- Developed and maintained well designed, testable application code in Java and Spring framework.
- Fixed issues and bugs in production by writing separate methods or classes and changes in the available code logic.
- Involved in the development and formulation of unit/integration testing and deployment to production servers.

Education

BIET Jhansi, Bachelors in Technology (IT)-2010

Jhansi, India
