Coppell, TX 75019 | (203) 979-2158 | zarrin.fatema83@gmail.com

PROFESSIONAL SUMMARY

Results-driven Business Intelligence Developer with 3 years of experience specializing in transforming complex data into actionable insights for strategic decision-making. Expert in developing interactive financial dashboards and enterprise reporting solutions using Power BI and Tableau. Proven ability to manage the full BI lifecycle—from data modeling and ETL processes to deployment—with a strong focus on data accuracy and integrity. Seeking to leverage technical skills to support data-driven strategies in a challenging financial environment.

TECHNICAL SKILLS

BI & Data Visualization:

Power BI, Tableau, SSRS, Looker, Excel Power View, DAX

Databases & ETL:

SQL Server, T-SQL, SSIS, Snowflake, SSAS, Data Warehousing

Data Modeling & Tools:

Star/Snowflake Schema, ERwin, MS Visio, Power Designer, SQL Server Management Studio

Methodologies:

Agile/Scrum, SDLC, Data Governance

Environments:

Visual Studio, JIRA

PROFESSIONAL EXPERIENCE

Power BI / Tableau Developer | Veterans Affairs (VA.gov)

Oct 2022 – Jul 2024

- Designed and developed executive-level financial dashboards for the CFO, enabling real-time monitoring of financial performance across VA hospitals and centers, supporting strategic budget allocation and compliance reporting.
- Engineered a scalable star-schema data model and optimized ETL processes using SSIS, improving data refresh efficiency by 25% and ensuring high data integrity for critical financial reporting.
- Authored complex DAX expressions to create calculated measures and KPIs, facilitating deep-dive analysis into spending trends and operational costs.
- Automated and deployed a suite of parameterized and drill-through reports via SSRS, scheduled for daily and weekly distribution to directors and analysts, enhancing decision-making speed.
- Acted as Scrum Master for an Agile team, facilitating sprint planning and retrospectives to ensure timely delivery of BI solutions in a fast-paced environment.

Environment: MS SQL Server, SSIS, SSRS, SSAS, Power BI, Tableau, Visual Studio, T-SQL

Power BI Developer | Envision Healthcare

Jul 2021 – Oct 2022

- Developed and maintained SSIS packages to extract, cleanse, and load data from legacy systems into a centralized data warehouse, significantly improving data reliability for reporting.
- Performed in-depth data analysis, validation, and mapping to ensure seamless migration of historical data to SQL Server, maintaining data consistency and quality.
- Created optimized database structures, including tables, views, and stored procedures, to support efficient data retrieval for business analytics.
- Collaborated with business stakeholders to gather requirements and translate them into technical specifications for data mart solutions.

Environment: MS SQL Server, SSIS, SSRS, T-SQL, Visual Studio, JIRA

EDUCATION

Master of Arts

Awadh University, Faizabad, UP, India

Bachelor of Arts

Lucknow University, Lucknow, UP, India
