

Zeeshan Ali Khan

Des Plaines, IL 60016 | (312) 538-8726 | zaliktech@gmail.com

Professional Summary

Java Developer with experience in designing, developing, and implementing scalable, high-performance applications. Proficient in Java, Spring Boot, Hibernate, RESTful APIs, and Microservices, with a strong understanding of object-oriented programming (OOP) principles and design patterns. Skilled in database management using SQL and NoSQL databases. Adept at Agile methodologies, CI/CD pipelines, and version control using Git. Passionate about delivering clean, efficient, and maintainable code while optimizing performance and security. Seeking to contribute expertise in Java development to a dynamic and innovative team

Technical Skills

Programming Languages: Java 17/11/8, JavaScript, HTML5, CSS, Bootstrap, AngularJS, ReactJS.

Tools & Platforms: Maven, Ant, Gradle, Docker, Kubernetes, Junit, Mockito, Git, Agile methodologies.

Frameworks: Spring, Hibernate, JPA

Database & Cloud Technologies: MySQL, PostgreSQL, MongoDB, Google Cloud, AWS (EC2, S3, SageMaker, Lambda)

Messaging Queues : Apache Kafka, RabbitMQ.

Professional Experience

Full Stack Java Developer

Vedantu Innovations Pvt. Ltd., Bengaluru, India

Sept 2021 – July 2022

- Worked on various phases of SDLC like requirement gathering, design, analysis and code development and the project was developed using Agile based SCRUM Methodology
- Developed Microservice Rest API using Spring Boot, Hibernate and PostgreSQL.
- Developed and deployed Microservices based applications using Spring Boot and Spring Cloud.
- Designed Rest API framework using Spring Web, Spring Security, Spring Data JPA, Swagger, Actuator and Lombok.
- Developed Microservices with Spring Eureka to retrieve API routes for the entire cluster. Used this strategy each microservice in a cluster can be load balanced and exposed through one API gateway.
- Designed User Interface issues using various front-end technologies such as HTML, CSS, and jQuery, Bootstrap, AngularJS and AJAX.

Java Developer

Vedantu Innovations Pvt. Ltd., Bengaluru, India

July 2020 – Aug 2021

- Developed server-side application to interact with database using Spring Boot and Hibernate.
- Integrated the application with Spring-MVC using Spring Boot, Spring Dependency Injection (DI), and Spring Annotations.
- Developed and deployed Microservices based applications using Spring Boot and Spring Cloud.
- Authenticated users and provided security to RESTful Web Services using OAuth 2.0.
- Used Apache Kafka for messaging to create producers/consumers for API.
- Developed the automated unit test cases for the Microservices using Junit and Mockito.

Web Developer

Sizmic Labs, Hyderabad, India

June 2019 – Feb 2020

- Develop, test, and maintain web applications using HTML, CSS, JavaScript, and modern frameworks (React or Angular).
- Optimize websites for speed, performance, and SEO best practices.
- Collaborate with UI/UX designers to ensure responsive and visually appealing designs.
- Debug and troubleshoot issues to improve website functionality and user experience.
- Work within Agile/Scrum development processes and participate in code reviews.
- Stay up to date with emerging web technologies and best practices

Selected Achievements

- Improved system efficiency by refactoring legacy code, reducing API response time by 40% and enhancing user experience.
- Designed and implemented RESTful and Microservices architectures using Spring Boot, leading to 30% faster deployment times.
- Integrated CI/CD pipelines with Jenkins, Docker, and Kubernetes, reducing deployment time from hours to minutes and increasing system reliability.
- Successfully delivered a new module within strict deadlines, increasing user engagement by 25%.

Education

Master of Science in Computer Science (Campbellsville University, KY) - Aug 2022 to May 2024

Bachelor of Technology (JNTU, Hyderabad, India) - June 2016 to Aug 2020
